SUMMARY OF THE REASONS FOR DECISION:

The DVD entitled *Wet* is classified as:
Objectionable except if the availability of the publication is restricted to persons who attained the age of 18 years.

This DVD mainly contains the feature of the same title. The feature explicitly depicts consensual adult sexual activity, in the context of opulent and stylish surroundings. The feature is identical in content and running time to that originally examined as a video recording and classified as a restricted publication by the Classification Office (OFLC Ref. 9800040). The decision was registered on 23 February 1998. The descriptive note 'Contains explicit sex scenes' was attached to the video recording. In the Summary of Reasons for the decision the explicit manner in which sex is presented for viewer sexual arousal and entertainment is the main matter in determining the classification.

The DVD contains only two short notices in addition to the feature, which raise no further matters for consideration. These additional components therefore do not affect the classification given to the video recording.
